SanDisk® Cruzer® USB Flash Drives

*A complete line of Hi-Speed USB 2.0 flash drives
for people on the go.*

No matter where you need to go...
or what you need to take with you...
the SanDisk Cruzer family includes a
sleek and stylish solution to
meet your needs.

A broad range of USB flash drives to meet a broad range of user needs.

When it comes to performance, durability and style, the innovative SanDisk family of USB flash drives sets the standard. Now anyone can store and transport documents, pictures, presentations, music and video-clips—quickly and easily. Whether it's the streamlined Cruiser Mini that goes anywhere with ease, the highly durable Cruiser Titanium that combines speed, strength and style in one rugged package, or the incredibly small, MP3-upgradeable Cruiser Micro, SanDisk is your best choice for USB 2.0* flash drives. Both now and in the future.

*SanDisk Cruiser USB 2.0 flash drives are backwards compatible with USB 1.1 ports.

SanDisk Cruiser Titanium: Available in 1GB**

If you demand the highest performance USB flash drive on the market today, the SanDisk Cruiser Titanium is for you. Built to provide extra protection against the inevitable bumps and jolts of a typical workday, Cruiser Titanium is virtually indestructible***, featuring a titanium-coated metal casing for unprecedented durability. With read/write speeds nearly three times faster than other USB flash drives, Cruiser Titanium is the best way for business and power users to store and move key documents, pictures, presentations, music and other personal files. Only Cruiser Titanium offers such a unique combination of speed, strength and style. With its sleek, titanium casing, a retractable USB connector and distinctive blue LED indicator, Cruiser Titanium will almost certainly become the benchmark for style and sophistication in the USB flash drive market.

**1MB = 1 million bytes, 1GB = 1 billion bytes.

***Cruiser Titanium is virtually indestructible, capable of surviving a force of up-to 2,000 pounds, simulating abnormal usage conditions. This specification is based on a SanDisk test environment, validated by an independent laboratory. No other claims as to its ability to withstand other destructive forces or abnormal environmental conditions, including but not limited to, extreme temperatures, corrosive ambients, X -Rays or other radiation, etc, are made by this claim.

SanDisk Cruiser Micro: Available in 128MB, 256MB, 512MB, 1GB, and 2GB.

The super-small Cruiser Micro is the newest—and coolest—member of the SanDisk Cruiser family. Roughly half the size of SanDisk's Cruiser Mini, Cruiser Micro lets you easily store documents, pictures, presentations, music and videoclips and quickly transfer them to another computer with a USB port. And when you want a new look for your Cruiser Micro, personalize it with new Cruiser Skins. What's more, music lovers of all ages will appreciate that Cruiser Micro can be expanded to deliver MP3 player functionality with the Cruiser Micro MP3 Companion. Simply plug the Cruiser Micro into the Cruiser Micro MP3 Companion—and you're ready to hear all of your favorite songs!

SanDisk Cruiser Mini: Available in 128MB, 256MB, 512MB 1GB, 2GB, and 4GB.

Nothing moves you or your data like the popular SanDisk Cruiser Mini. In fact, everything about Cruiser Mini is built for travel. With its thin profile and super-sleek design, Cruiser Mini goes anywhere, anytime. Just slip it into a pocket or purse and off you go. Two additional colored protective caps and a removable lanyard let you personalize Cruiser Mini to fit your style. Plus, Cruiser Mini and the entire Cruiser family comes with an advanced file security application called CruiserLock™**** that encrypts your individual files, keeping them safe and secure. Simply choose a personal password, select the file that you want to encrypt, and CruiserLock does the rest.

****Windows only. Local administrator privileges required for Windows 2000 and XP.
